Transportable goal 7x2m - Cambridge

Artikelcode: S-1245

General Information

Ara of application	<p>The Cambridge is an exclusive and sustainable transportable goal of 7x2m which is suitable for placement on practice fields. The Cambridge is provided with sturdy shores, heavy net shackle and an oval 100x120m extrusive profile to lengthen the sustainability of the goal. The goal has a hookless net fixation through a synthetic net strip. This net fixation is very safe because it contains no protruding parts. Next to safety, you will also no longer be bothered by vulnerable brackets and optic it looks very nice. To perfectly hang the net, the Cambridge is provided with a steel tension cable in order to easily span the net. The Cambridge has two wheels on the backside which are suitable for transport over (artificial) grass fields. On the outside of the Cambridge there are carriage shackles to easily lift the goal.</p> <p>The Cambridge is very suitable for intensive practice use.</p> <p>Warranty on the construction excluding the net and synthetic net strip.</p>
