Transportable goal 5x2m - Newcastle

Artikelcode: S-1226

General Information

Ara of application	<p>The Newcastle is a sustainable, transportable goal of 5x2m, which is suitable for placement on a practice field. The Newcastle is provided with sturdy shores and an oval 80x90mm extrusion profile to lengthen the sustainability of the goal. The goal has a hookless net fixation through a synthetic net strip. This synthetic net strip is very safe because it contains no protruding parts. Next to safety, you will also not be bothered by vulnerable brackets and optic it looks very nice. The Newcastle has two wheels on the back side, which makes it suitable for transport over (artificial) grass fields. On the outside of the Newcastle there are carriage shackles to easily lift the goal.</p> <p>The Newcastle is very suitable for practice use.</p> <p>Warranty on the entire construction excluding the goal net and net strips.</p>
